SOLUTION EVALUATION

HOW USER RATE SEP SESAM

SEP sesam achieved a rating of 81.6 out of 100 points on the solution side, securing first place. Scope of functions, performance and user-friendliness of the solution are particularly emphasized. In terms of functionality SEP sesam achieves 82.0 out of 100 points with top ratings for the support of different backup types, the quality of automated backup executions or even for the selection of different backup modes and achieves the second highest rating. In terms of performance SEP sesam even ranks first with 80 of 100 points. The users honor the excellent performance such as scalability or backup speed, the easy maintenance and the high reliability of the solution with top ratings. With these outstanding performances SEP sesam convinces its users all along the line, so that they would recommend the solution to others without restrictions and would buy it again at any time.

MANUFACTURER RATING

HOW USERS RATE "SEP AG"

With 78.9 out of 100 points, SEP also achieves the best result at the manufacturer level and therefore positioned at the top. SEP achieves the highest individual score of 82.8 points for the company's innovative ability, the only manufacturer to exceed the 80 points mark in this category. SEP not only inspires users with new innovative products, but also provides guidance on how they can improve existing products and benefits of integrating external technologies from other manufacturers. SEP is also the only manufacturer that clearly leads the overall product portfolio and the sales partner landscape with more than 80 points. Users are not only convinced by the offer of complementary security solutions or the management and integration tools, but also the competence of the sales consultants and quality of individual offers are given top marks. In addition, SEP is seen as a reliable partner that keeps its promises without restrictions and convinces users to purchase additional products from SEP or to recommend SEP as a whole.
