

# Cloud Application Protection Service - CAPS

## Backup and Recovery for Dynamics 365

### Your Strongest Weapon Against Data Loss

#### Even in the cloud, data loss can occur

When companies migrate critical business data to the cloud, new challenges arise in implementing data security. On-premise data is naturally backed up within companies and organizations. However, when used as a SaaS application, there is no backup of your Dynamics 365 data. The fact is that recovering data stored in the cloud is impossible without regular backups.

#### Is Your Dynamics 365 Data at Risk?

In Dynamics 365, you are offered a daily copy of the entire instance, which is retained for 3 days and then deleted. There is no way to restore individual data objects on a granular level or choose a longer retention period.

Dynamics 365 does not include automatic backup but only offers minimal data protection and does not cover data loss caused by user errors, malicious actions, ransomware, or other cybercrimes.

#### Full-Service with SEP CAPS

Cost efficiency, as you don't need server or software resources since everything is included in the price.

#### Everything included in the service

SEP CAPS automatically secures all data within your Dynamics 365 environment for sales, marketing, and project management:

- Compliance
- GDPR
- Audit Log
- Storage
- Job Monitor
- Validation
- Status Monitor

#### Complete Protection of Your Cloud Data

SEP CAPS for Dynamics 365 ensures full protection and granular recovery options for every data object. With the unique universal recovery view and search capabilities, you can quickly locate missing objects and restore them to their original location instantly.

## Daily Automatic Backups

Once set up, SEP CAPS performs backups of your Dynamics 365 data multiple times a day automatically.

## Uniquely Tamper-Proof

With SEP CAPS, no feature allows the overwriting of existing data. The patented blockchain algorithm makes low-level tampering impossible, ensuring the integrity and security of your data.

## Unlimited Retention & Storage

SEP CAPS offers both customizable and unlimited retention periods for your data.

## Quick Find & Restore

With the Search & Restore features, you can easily find and restore all your data at any time. With SEP CAPS, your data is available across all snapshots, ensuring continuous accessibility.

## Activation of Your SEP CAPS Account

Setting up and running your SEP CAPS backup for Dynamics 365 is as easy as three simple steps. SEP CAPS automatically detects new users and provides the option to add them to the backup set automatically.

## Worldwide, companies rely on SEP CAPS

Customers around the globe have chosen SEP CAPS as their preferred tool against data loss and downtime. Here are some reasons why they trust SEP CAPS:

### Data availability

Exclusively dedicated to safeguarding SaaS data, SEP CAPS' proprietary cloud is designed to ensure data availability - always.

### Cost-effective

To make everything simple, all costs, plus international support, are included in the license price.

### Simplicity First

A single service that covers all SaaS data protection needs. Popular among administrators for its user-friendliness.

### Instant recovery

Restore your data in seconds with our diverse search and restore features, thanks to extremely fast indexing algorithms.

### Always safe

Described by analysts as industry-leading, our platform has been built from the ground up for ultimate security.
